## THE GREAT STRIKE.

The State Militia Preparing for Busi-  
ness in Case of an Emergency.

CHICAGO, Nov. 8.—9 a. m.—The mem-  
bers of the first and second regiments  
of the Illinois National guards assembled  
at the armory this morning. Perfect  
quiet reigned at the yards this morning,  
the tracks being patrolled by the deputy  
sheriffs, who kept the small crowds  
which congregated in the corners mov-  
ing. Around the outskirts of the yard  
the scene was different. Gangs of strik-  
ers stood at the entrance and men with  
their dinner pails in their hands were  
deprived of them and severely thrashed.  
There seemed to be a determined effort  
on the part of the strikers to prevent  
any of the new men from applying for  
the positions which the former have  
left. On the other hand the employers  
seemed determined not to re-engage any  
of the strikers.

CHICAGO, Nov. 8.—At 10 o'clock this  
morning the first and second regiments  
marched from their armory to the Lake  
Shore station and from there they will at  
once be transported to the stock yards.  
There has been no serious disturbance  
at the yards yet, but assaults on non-  
union men are growing more frequent.  
As the morning progressed the crowds  
surrounding the entrances to the yards  
increased, the strikers became more ob-  
stinate and the deputy sheriff's found  
greater difficulty in dispersing them.  
Armour & Co. had about 150 old men,  
who have refused to stop, at work kill-  
ing hogs, but this was the only hog  
house in the yards running. Knight of  
Labor Barry said he had not as yet been  
able to get at all the facts in regard  
to the strike, and did not know what action  
he would take. He proposed, however,  
to have a talk with the packers during  
the day, and hoped to soon bring about  
an amicable settlement of the trouble.

3:30 p. m.—The militia arrived at the  
stock yards without incident and are  
now quartered at Ferguson's packing  
house. The crowds cheered them faintly  
on their arrival, but yelled and jeered  
at Pinkerton men on their rounds. There  
has been no disturbance of any kind  
since the assaults this morning. All the  
men arrested for these attacks were taken  
before a justice and fined from \$50 to  
\$100 each.

### A Case of "Love Powders."

WABASH, Nov. 8.—David Pearson, a  
bachelor, aged fifty-seven years, who for  
thirty-five years has resided in South  
Wabash and borne an excellent reputa-  
tion, was arrested this morning and  
lodged in jail to answer a grave charge.  
A year ago Pearson boarded in the fam-  
ily of Wm. Baldwin, and soon after tak-  
ing up his abode there he became very  
much attached to Ida, the fourteen-  
year old daughter of Baldwin. He  
brought, the girl alleges, candy for her  
almost daily, and she states that after  
eating it she grew to love Pearson. Her  
affection for him made her an easy prey  
to him, and as a result of her indiscre-  
tion she was compelled to cause his ar-  
rest. It is hinted among friends of the  
girl that Pearson fed her on "love  
powders" with a view to accomplishing  
her ruin. The arrest of Pearson created  
a sensation here.

## THE NEXT SENATE.

It Will Be Very Evenly Balanced and  
Possibly There May Be a Tie.

WASHINGTON, Nov. 8.—On the 3d  
day of next March the terms of sixteen  
republican and nine democratic senators  
will expire. Of the sixteen republicans  
who will retire twelve will certainly be  
succeeded by men of the same party.  
Messrs. Sherman, Aldrich and Edmunds  
have been re-elected, and the legislatures  
of Connecticut, Maine, Massachusetts,  
Minnesota, Nebraska, New York, Penn-  
sylvania and Wisconsin are republican.  
The democrats lose one of the nine  
whose terms expire—Fair, of Nevada—  
and are secure of the remainder. So  
that, if the legislatures of California, In-  
diana and New Jersey prove to be dem-  
ocratic the result of the change in the  
senate, after the 3d of March, will be a  
net loss of three to the republicans, a  
democrat having been chosen to suc-  
ceed Mahone from Virginia. The present  
senate stands forty-one republicans,  
thirty-four democrats and one read-  
juster (Riddleberger), but Senator Van-  
Wyck comes back from Nebraska as a  
people's representative. He made his  
fight before the whole people, and won  
on the issue of opposition to corpora-  
tions. During his present term he has  
not hesitated on occasions to antagonize

his party, and under the conditions of  
his re-election he may be more inde-  
pendent still. Leaving VanWyck and  
Riddleberger out of the count, the next  
senate will stand, provided the dem-  
ocrats secure the three doubtful states  
mentioned—thirty-seven republicans and  
thirty-seven democrats. Thus Messrs.  
VanWyck and Riddleberger would hold  
the balance of power.

In connection with this probable situ-  
ation, it is a fact worth mentioning that  
both Van Wyck and Riddleberger have  
given evidences of a kindly feeling for  
the administration. In the event of any  
conflict between the executive and the  
senate, the two votes from Nebraska  
and Virginia would determine the issue.  
Van Wyck and Riddleberger would have  
it in their power, by co-operating with  
the democrats, to organize the senate,  
or should Van Wyck vote with the re-  
publicans and Riddleberger with the de-  
mocrats on the question of organiza-  
tion, there would be a tie, and there is  
no vice-president to throw the deciding  
vote.

## CARLISLE.

The Speaker to Remove from Kentucky  
Shortly.

CINCINNATI, Nov. 8.—The Times-Star  
this afternoon says that Speaker Car-  
lisle, with Mrs. Carlisle, are visiting  
their sons in Wichita, Kan., and will,  
after the adjournment of congress, re-  
move from the state of Kentucky alto-  
gether and probably make his home at  
Wichita.

### Weather Indications.

WASHINGTON, Nov. 8.—The weather  
indications are as follows:  
Indiana, generally fair weather, slight-  
ly warmer.  
Michigan, slight rains slightly  
warmer.

## BULGARIA.

The Country is Declared in a State of  
Siege.

SOFIA, Nov. 8.—A state of siege has  
been proclaimed throughout Bulgaria.  
The Russian iron clad Mercer has ar-  
rived at Bourgas, the scene of the re-  
cent revolt and is at anchor in the har-  
bor.

### A Jockey Dead.

LONDON, Nov. 8.—Fred Archer, the  
celebrated jockey, is dead.  
Archer's death was the result of a  
pistol shot wound inflicted by himself  
while in a delirium resulting from fever.

## SHOOTING AFFRAY.

A Brutal Horseman Shoots a Laborer  
Without Provocation.

PLYMOUTH, Ind., Nov. 8.—A serious  
shooting affray occurred here, Saturday  
evening, which will probably result fat-  
ally to one Jacob Farney. Farney is a  
laboring man, and on returning from  
work, entered the saloon of Mike Spies-  
hoffer, to buy a cigar. After buying the  
cigar, he was in the act of leaving, when  
he was accosted by one Billy Herring,  
alias Holmes, a jockey, who was display-  
ing a revolver. Nothing serious was  
thought of this, but Herring remarked:  
"Farney, I would like to shoot you."  
As no trouble occurred between the two,  
no mention was paid to the remark by  
any of the lookers-on, but on Farney re-  
plying, "Billy, I don't think you would  
shoot me; would you?" he had no more  
than finished the sentence that Holmes  
fired, striking Farney in the abdomen,  
which will result in his death. Holmes  
immediately left for parts unknown, and  
several vigilance committees are scour-  
ing the country for him. If he is caught  
he will be severely dealt with.

### The Warren-O'Leary Prize Fight.

LOUISVILLE, Nov. 8.—At 1:15 p. m.,  
Chick Cawthorne, of Louisville, agreed to  
act as referee in the Warren-O'Leary  
prize fight and the fight began in Meade  
county.

### LATER.

Warren won the fight.  
Suspended for Teaching Wrong Doc-  
trines.

GALVESTON, Tex., Nov. 8.—The Texas  
Presbyterian synod has adopted the res-  
olution suspending Rev. Dr. James  
Woodward, the professor of the Presby-  
terian seminary, at Columbia, S. C., for  
views at variance with the orthodox doc-  
trine. A similar resolution was previ-  
ously adopted at the Georgia synod.

George Christian, a six year old son  
of Joseph Christian, of No. 123 DeWald  
street, died yesterday of diphtheria.

## CLEVELAND.

The President is Heartily Received at  
Boston.

Boston, Nov. 8.—President Cleve-  
land is in Boston and at Harvard college  
for the first time. This morning he had  
the honors official. He is now receiving  
the honors classical and this evening he  
will be accorded the salute popular.

After breakfast the president, gover-  
nor, General Dalton and the remainder  
of the party were placed in carriages and  
the procession started. Commonwealth  
avenue was alive with people who greet-  
ed the president enthusiastically. As  
the procession started, battery C  
boomed forth a salute. The procession  
moved rapidly on its way to Cambridge  
and every street through which it passed  
was thronged with people and cheer after  
cheer went up as the carriages rolled by,  
each hauled by six white horses.

The party will leave Cambridge about  
4 p. m., coming to Faneuil hall. After  
a reception there, the president will  
hold another at the Hotel Vendome, and  
will then take the 10:30 train for New  
York. Mr. James Russell Lowell deliv-  
ered the oration of the day, and paid a  
glowing tribute to President Cleveland.

### A Boat Race.

LONDON, Nov. 8.—The four card  
shell race between Hanlan, Teemer,  
Hamm and Teneyck in one boat and  
Ross, Lee, Bubeare and Perkins in the  
other, was rowed to-day on the Thames.  
Hanlan's crew won.

## NOTHING IN IT.

The Steamer Manhattan Was Not Lost,  
as Reported.

Boston, Nov. 8.—Captain Hallett, of  
the steamer H. F. Dimock, at this port  
from New York, reports that at 12:30 p.  
m. yesterday he saw the United States  
steamer Manhattan, which was reported  
to have foundered off New Haven about  
9:30 yesterday morning, passing through  
Plum gap all right.

GREENPORT, L. I., Nov. 8.—The reve-  
nue cutter Manhattan, which was re-  
ported lost, arrived here yesterday after-  
noon and will leave to-day on a cruise.

## THE TWO SAMs.

They Have Talked to 3,000,000 People  
in a Year and Read Letters by  
The Bushels.

### Buffalo Special.

Rev. Sam Small has just completed  
his first year of evangelical work in con-  
junction with Rev. Sam Jones, of Geor-  
gia. He gave the Sun reporter to-day  
an account of his experiences and plans  
for the future. He preached this after-  
noon to a large gathering of young men  
at the Young Men's Christian Associa-  
tion hall, and to-night addressed a still  
larger audience at Grace Methodist  
church. Mr. Small said:

"Brother Jones and I, in the year  
ending September 15, have held serv-  
ices in St. Louis, Chicago, Cleveland,  
Chautauque and other places. We have  
preached and addressed audiences in  
that period about 1,000 times, the con-  
gregations aggregating 3,000,000 people.  
We have traveled altogether 20,000  
miles. Our schedule for the future  
takes us to Omaha first, then to Boston  
in January, San Francisco in February  
and March, thence to Minneapolis,  
Rome, Ga., Red Rock, Loveland, Ur-  
bana, Round Lake, Grimsby Park, Ont-  
ario and other points. We have enough ap-  
plications to occupy our time for five  
years, but have only made positive en-  
gagements for a year ahead."

"Do you receive many letters?"  
"We get bushels of letters, but we  
answer only the sensible ones. The  
letters from cranks we burn. Some  
very sensational stories are told in these  
letters. Seven-tenths of the misery we  
hear of is caused by liquor. It is grow-  
ing more apparent that the church must  
destroy the liquor traffic or it will thro-  
tle the church. The church is afflicted  
in these days with overdoses of starch,  
stucco and plush. It needs drenching  
with apostolic zeal, human sympathy  
and plain United States preaching."

Mr. Small was asked if his journalistic  
experience had aided him in his evan-  
gelical work. He replied: "Well, I  
meet as many wooden-headed people  
and cranks here as in journalism. In the  
work of religion you catch them all, from  
the wild-eyed manufacturer of the mil-  
lennial almanac to the sad-eyed sister  
who wants to live to see the whole  
heaven world rigged out in new red  
dannels."

## THE STATE.

What is Said in the Field of Politics  
and News About Us.

In democratic DeKalb the republi-  
cans elected nearly their entire county  
ticket.

Judge Holman pulls through by 500  
majority. The malcontents were after  
him with a sharp stick.

Capt. J. A. Lemcke, state treasurer  
elect, who has been confined to his  
home for several weeks from the effect of  
rheumatism, went to the Arkansas Hot  
Springs for relief on Wednesday.

The democrats of Noble county fared  
pretty well, after all. They elected the  
treasurer, sheriff, coroner and one com-  
missioner. The republicans are badly  
torn up over this unexpected result.

It is conceded by all parties that upon  
the face of the present legislative re-  
turns, the democrats have a majority of  
two on joint ballot, but the republi-  
cans claim that a recount will develop  
both that frauds were committed by  
which the republicans were counted out  
and these may be overruled and the re-  
publicans restored to their rights. The  
districts in which the recount has been  
demanded include Vermillion and Vigo,  
and Sullivan, Clark and Jefferson.

The general assembly stands thus:  
Senate, democrats, 31; republicans, 19  
House of representatives, democrats, 45;  
republicans, 55. The democrats will  
have seventy-six members in both  
houses, giving them two majority on  
joint ballot. The republicans claim an  
ineligible member in a southern county  
and both sides are charging fraud at In-  
dianapolis. Safety committees have  
been appointed to insist on a fair count  
and punish fraud.

Elmer Hollinsbee, drummer for  
Charles Hamlin & Co.'s grocery house  
of Lafayette, disappeared with \$2,000 of  
his employers' money and went to Can-  
ada. He was captured Wednesday in  
Detroit, by one of Pinkerton's men, who  
inveigled him from the other side by  
sending him a telegram signed by his  
mistress, saying she was dangerously  
ill. He bit at the dispatch, and jour-  
neyed from Toronto to Detroit, where  
the detective nabbed him. Hollinsbee,  
when he lit out, left his wife and two  
small children at the Bramble house, in  
Lafayette, without a cent, and a board  
bill of two weeks' unpaid. Hollinsbee  
said guilty Saturday, and was sentenced  
to prison for two years.

"There has been a great hue and cry,"  
said Deputy State Treasurer Conner  
this morning, "about 'opening the books'  
of the state treasurer's office. They  
have never been any other way than  
open. Any man or any body of men  
are welcome to come here and examine  
the books at any time, and that privilege  
has never been denied anybody. The  
books are kept in such a way here that  
they will show exactly the operations of  
the office, and there is enough money,  
or its equivalent, to make a full settle-  
ment at any time. When the legislative  
committee came here two years ago we  
told them the same thing, but they  
didn't take advantage of it, but satisfied  
themselves with examining the books in  
the auditor's office."

Hon. J. C. Nelson, the defeated dem-  
ocratic candidate for lieutenant governor,  
whose earnest and honorable canvass for  
the position has gained for him the re-  
spect of the people of the state if he did  
fail to get enough of their votes, has  
written a letter to a personal friend, in  
which he takes a cheerful view of the  
situation. He says he has no fault to  
find nor complaints to make, and is only  
hopeful that the democracy will at once  
begin the fight to secure the victory in  
Indiana in 1888. Until that time, he  
says he is out of politics, and expresses  
his gratitude for the support he received  
this year. Mr. Nelson is one of the few  
candidates who did not resort to person-  
alities or unseemly abuse of his opponent  
during the campaign.

### THE MARKETS.

New York, Nov. 8.—Wheat opened  
a trifle better, but later declined 1/4c;  
No. 2 red, 85 1/4@89. Corn, 4c lower and  
heavy, at 45@45 1/4c. Oats, a shade lower  
and dull at 32@40c.

### The Bank Circulation.

WASHINGTON, Nov. 8.—Mr. Trenholm,  
comptroller of currency, in an interview  
says: "The national banks cannot keep  
the called 3 per cent. bonds as the de-  
posit required by the United States  
laws. Such deposit must be in interest  
bearing bonds."

Charlie Dodgson, formerly of this  
city, returned from Detroit to-day, for a  
brief visit. The schools will now proba-  
bly close for want of pupils.

Miss Frances E. Willard, in her annual address before the National Woman's Christian Temperance union, said: "To my mind here lies the core of the woman question: Teach girls to work, and you diminish by one-half their temptation to a life of sin. Mrs. J. B. Hobbs tells us that of 870 girls arrested in one month and brought to one police station in Chicago, only 130 knew how to sew or to do housework."

The finest book we have ever examined for children is called the Child's Bible. It is very attractive, beautifully illustrated and gotten up in such a manner that it brings forth the wonderful truths in the Bible so simple that the smallest child can understand. Dr. Vincent is one of the editors. His name is sufficient guarantee that it is a book of genuine merit. Get it for your children and you will never regret it. Mrs. S. Hendrick is now selling the book in our city and we hope she will succeed in placing one in every home where there are children.

Fort Wayne people who go to Peru are invited to visit the Wabash hospital, which is now nicely arranged. Five patients were discharged from the hospital as cured last week and ten are now under treatment there.

Gus Woodworth is now at Kiowa, Kan., and flies this republican ticket at the head of his paper, the Journal: "For president in 1888, John Sherman, of Ohio; for vice president in 1888, A. D. Porter, ex-governor of Indiana."

The republican gain in the vote in Allen county, according to official figures, was 1,970; in Adams county the republicans gained 810; in DeKalb, 123; in LaGrange, 45; Noble, 35; Steuben, 57; Wells, 134; Whitley, 70. Col. R. S. Robertson's plurality is 3,647.

Frank Siddall, the Philadelphia soap man, says he advertises in the papers exclusively because people who do not read do not use soap. And people who do not read do not generally have anything to buy with. The columns of the daily papers afford the best known means of advertising.

Stine, who is the Washington correspondent of the Gazette, will plant on his farm at Union City a variety of shrubbery gathered from the battle fields and other historical places in the United States. He left Huntington, last night, for his new field of labor. His successor as yet has not been appointed by Mr. Barnes, who made the change to let Mr. Frank Tyrrell resume his place here.

Conductor Mike Mangan had a narrow escape from death yesterday. He was walking on top of a Pittsburgh freight train as it approached Valparaiso. As he was about to step from one car to another, the carriers snapped asunder. Mangan saw death if he went forward, and with rare presence of mind, he threw himself sideways from the train, breaking one of his lower limbs at the ankle. He was brought here on a special train, and is resting comfortably at the St. Joe hospital. Mr. Mangan is a trusted railroad man and supports his mother and sister who live in the Sixth ward.

Mayor Muhler sent three tramps to jail this morning. Charles Von Kirk was publicly drunk and likewise went to jail. John De Mook, who was shot for an attempted burglary on Wall street, was sentenced to jail on a charge of vagrancy. It appears there was little pretext to shoot De Mook.

Mr. Lawrence Barrett was seen to sublime advantage as *Richelieu*, the great cardinal statesman, Saturday night. His support was excellent, and an audience, embracing some of the best people from Fort Wayne and the villages of northern Indiana, was delighted. Mr. Barrett and his party went from here to Detroit to play one week.

## MONROEVILLE.

Auditor-Elect J. B. Neizer Tendered a Handsome Reception by His Neighbors.

MONROEVILLE, Nov. 8.

The political strife has ended and the business in general will lum.

Why are the defeated candidates like the world we inhabit? Because they are flattened at the polls.

Mr. John Clary, of Fort Wayne, spent Sunday last with relatives in this place. John is said to have some attraction here.

We learn that Henry Krick has given up the idea of starting a branch saloon at Hoagland. People there are against such business.

The iron bridge north of town will soon be completed.

An engine furnishes the power for Mr. M. E. Argo's dairy.

James and Elias Bolyard have sold their saloon fixtures, liquors etc., to John Tillman, of Jefferson township.

The county auditor-elect, Mr. J. B. Neizer, returned home last Saturday on the east bound fast express, due here at

8:25 p. m. The Monroeville band and a large number of his friends and neighbors were awaiting his arrival at the depot to greet him, which they did most heartily. The body formed into line, headed by the band and escorted our distinguished citizen to his home, where a general reception was held. Billy Overly and Charley Peckham furnished excellent music, and everybody was royally entertained. A fine repast was served to the party, after which each and every one went home rejoicing and wishing Mr. Neizer success in his new undertaking. By the way, Mr. Neizer deserves the position to which he has been elected. We know of no one who is more trust-worthy, capable and obliging. He is well fitted for the place, and his past experience shows that he will be a faithful servant, and don't you forget it. We learn that he will not move his family to Fort Wayne before next spring.

Peter H. Pernot, of the document room, Washington, was in town last Friday evening, en route to his home in Jackson township. Peter is a very clever fellow and has many friends here.

## THE GREAT STRIKE.

The State Militia Preparing for Busi-  
ness in Case of an Emergency.

CHICAGO, Nov. 8.—9 a. m.—The mem-  
bers of the first and second regiments  
of the Illinois National Guard assembled  
at the armory this morning. Perfect  
quiet reigned at the yards this morning,  
the tracks being patrolled by the deputy  
sheriffs, who kept the small crowds  
which congregated in the corners moving.  
Around the outskirts of the yard  
the scene was different. Gangs of strik-  
ers stood at the entrance and men with  
their dinner pails in their hands were  
deprived of them and severely thrashed.  
There seemed to be a determined effort  
on the part of the strikers to prevent  
any of the new men from applying for  
the positions which the former have  
left. On the other hand the employers  
seemed determined not to re-engage any  
of the strikers.

CHICAGO, Nov. 8.—At 10 o'clock this  
morning the first and second regiments  
marched from their armory to the Lake  
Shore station and from there they will at  
once be transported to the stock yards.  
There has been no serious disturbance  
at the yards yet, but assaults on non-  
union men are growing more frequent.  
As the morning progressed the crowds  
surrounding the entrances to the yards  
increased, the strikers became more ob-  
sistent and the deputy sheriff's found  
greater difficulty in dispersing them.  
Amour & Co. had about 150 old men,  
who have refused to stop, at work kill-  
ing hogs, but this was the only hog  
house in the yards running. Knight of  
Labor Barry said he had not as yet been  
able to get at all the facts in regard to  
the strike, and did not know what action  
he would take. He proposed, however,  
to have a talk with the picketers during  
the day, and hoped to soon bring about  
an amicable settlement of the trouble.

3:30 p. m.—The militia arrived at the  
stock yards with an incident and are  
now quartered at Ferguson's packing  
house. The crowds cheered them faintly  
on their arrival, but yelled and jeered  
at Pinkerton men on their rounds. There  
has been no disturbance of any kind  
since the militia this morning. All the  
men arrested for these attacks were tak-  
en before a justice and fined from \$50 to  
\$100 each.

### A Case of "Love Powder."

WABASH, Nov. 8.—David Pearson, a  
bachelor, aged fifty-seven years, who for  
thirty-five years has resided in South  
Wabash and borne an excellent reputa-  
tion, was arrested this morning and  
lodged in jail to answer a grave charge.  
A year ago Pearson boarded in the fam-  
ily of Wm. Baldwin, and upon taking  
up his abode there he became very  
much attached to Ida, the fourteen-  
year old daughter of Baldwin. He  
brought the girl along, candy for her  
almost daily, and she stated that after  
eating it she grew to love Pearson. Her  
affection for him made her an easy prey  
to him, and as a result of her indiscre-  
tion she was compelled to cause his ar-  
rest. It is hinted among friends of the  
girl that Pearson fed her on "love  
powder" with a view to accomplishing  
his aim. The arrest of Pearson created a  
sensation here.

## THE NEXT SENATE.

It Will be Very Evenly Balanced and  
Possibly There May Be a Tie.

WASHINGTON, Nov. 8.—On the 3d  
day of next March the terms of sixteen  
republicans and nine democratic senators  
will expire. Of the sixteen republicans  
who will retire twelve will certainly be  
succeeded by men of the same party.  
Messrs. Sherman, Aldrich and Edmunds  
have been re-elected, and the legislatures  
of Connecticut, Maine, Massachusetts,  
Minnesota, Nebraska, New York, Penn-  
sylvania and Wisconsin are republican.  
The democrats lose one of the nine  
whose terms expire—Fair, of Nevada—  
and are secure of the remainder. So  
that, if the legislatures of California, In-  
diana and New Jersey prove to be dem-  
ocratic the result of the change in the  
senate, after the 3d of March, will be a  
net loss of three to the republicans,  
a democrat having been chosen to suc-  
ceed Mahone from Virginia. The pres-  
ent senate stands forty-one republicans,  
thirty-four democrats and one read-  
juster (Biddleberger), but Senator Van  
Wyck comes back from Nebraska as a  
people's representative. He made his  
fight before the whole people, and won  
on the issue of opposition to corpora-  
tions. During his present term he has  
not hesitated on occasions to antagonize

his party, and under the conditions of  
his re-election to may be more inde-  
pendent still. Leaving Van Wyck and  
Biddleberger out of the count, the next  
senate will stand, provided the dem-  
ocrats secure the three doubtful states  
mentioned—thirty-seven republicans and  
thirty-seven democrats. Thus Messrs.  
Van Wyck and Biddleberger would hold  
the balance of power.

In connection with this probable situ-  
ation, it is a fact worth mentioning that  
both Van Wyck and Biddleberger have  
given evidences of a kindly feeling for  
the administration. In the event of any  
conflict between the executive and the  
senate, the two votes from Nebraska  
and Virginia would determine the issue.  
Van Wyck and Biddleberger would have  
it in their power, by co-operating with  
the democrats, to organize the senate,  
or should Van Wyck vote with the re-  
publicans and Biddleberger with the  
democrats on the question of organiza-  
tion, there would be a tie, and there is  
no vice-president to throw the deciding  
vote.

## CARLISE.

The Speaker to Remove from Kentucky  
Sheriff.

CINCINNATI, Nov. 8.—The Times-Star  
this afternoon says that Speaker Carl-  
ise, with Mrs. Carlise, are visiting  
their sons in Wichita, Kan., and will,  
after the adjournment of congress, re-  
move from the state of Kentucky alto-  
gether and probably make his home at  
Wichita.

indications are as follows:  
Indiana, generally fair weather, slight-  
ly warmer.  
Michigan, slight rains slightly  
warmer.

## BULGARIA.

The Country is Declared in a State of  
Siege.

SOFIA, Nov. 8.—A state of siege has  
been proclaimed throughout Bulgaria.  
The Russian iron and steel has ar-  
rived at Bourgas, the scene of the re-  
cent revolt and is at another in the har-  
bor.

### A Jockey Dead.

LONDON, Nov. 8.—Fred Archer, the  
celebrated jockey, is dead.  
Archer's death was the result of a  
pistol shot wound inflicted by himself  
while in a delirium resulting from fever.

## SHOOTING AFFRAY.

A Brutal Horseman Shoots a Laborer  
Without Provocation.

PERMONT, Ind., Nov. 8.—A serious  
shooting affray occurred here, Saturday  
morning, which will probably result fat-  
ally to one Jacob Farnum. Farnum is  
a laboring man, and on returning from  
work, entered the saloon of Mike Spina-  
hoff, to buy a cigar. After buying the  
cigar, he was in the act of leaving, when  
he was accosted by one Billy Herring,  
alias Holmes, a jockey, who was display-  
ing a revolver. Nothing serious was  
thought of this, but Herring remarked:  
"Farnum, I would like to shoot you."  
As no trouble occurred between the two,  
attention was paid to the remark by  
any of the lookers-on, but on Farnum re-  
plying, "Billy, I don't think you would  
shoot me; would you?" he had no more  
than finished the sentence than Holmes  
fired, striking Farnum in the abdomen,  
which will result in his death. Holmes  
immediately left for parts unknown, and  
several vigilance committees are secur-  
ing the country for him. If he is caught  
he will be severely dealt with.

### The Warren-O'Leary Prize Fight.

LOUISVILLE, Nov. 8.—At 1:15 p. m.,  
Cliff Chalkwater, of Louisville, agreed to  
act as referee in the Warren-O'Leary  
prize fight and the fight began in Middo  
county.

### LATHE.

Warren won the fight.

Suspended for Teaching Wrong Doc-  
trines.

GALVESTON, Tex., Nov. 8.—The Texas  
Presbyterian synod has adopted the res-  
olution suspending Rev. Dr. James  
Woodward, the professor of the Presby-  
terian seminary, at Columbia, S. C., for  
views at variance with the orthodox doc-  
trine. A similar resolution was previ-  
ously adopted at the Georgia synod.

George Christian, a six year old son  
of Joseph Christian, of No. 123 DeWald  
street, died yesterday of diphtheria.

## CLEVELAND.

The President is Heartily Received at  
Boston.

Boston, Nov. 8.—President Cleve-  
land is in Boston and at Harvard college  
for the first time. This morning he had  
the honors official. He is now receiving  
the honors classical and this evening he  
will be accorded the salute popular.

After breakfast the president, gover-  
nor, General Dalton and the remainder  
of the party were placed in carriages and  
the procession started. Commonwealth  
avenue was alive with people who greet-  
ed the president enthusiastically. As  
the procession started, battery C  
boomed forth a salute. The procession  
moved rapidly on its way to Cambridge  
and every street through which it passed  
was thronged with people and cheer after  
cheer went up as the carriages rolled by,  
each hailed by six white horses.

The party will leave Cambridge about  
4 p. m., coming to Faneuil hall. After  
a reception there, the president will  
hold another at the Hotel Vendome, and  
will then take the 10:30 train for New  
York. Mr. James Russell Lowell deliv-  
ered the oration of the day, and paid a  
glowing tribute to President Cleveland.

### A Boat Race.

LOWSON, Nov. 8.—The four oared  
shell race between Hanlan, Towner,  
Hamm and Teneyck in one boat and  
Ross, Lee, Bahner and Perkins in the  
other, was rowed to-day on the Thames.  
Hanlan's crew won.

## NOTHING IN IT.

The Steamer Manhattan Was Not Lost,  
as Reported.

Boston, Nov. 8.—Captain Hallett, of  
the steamer H. F. Dimock, at this port  
from New York, reports that at 12:30 p.  
m. yesterday he saw the United States  
steamer Manhattan, which was reported  
to have foundered off New Haven about  
9:30 yesterday morning, passing through  
Plymouth gap all right.

GREENSBORO, N. C., Nov. 8.—The re-  
venue cutter Manhattan, which was re-  
ported lost, arrived here yesterday after-  
noon and will leave to-day on a cruise.

## THE TWO SAMs.

They Have Talked to 3,000,000 People  
in a Year and Read Letters by  
The Bushels.

### Bushes Special.

Rev. Sam Small has just completed  
his first year of evangelical work in con-  
junction with Rev. Sam Jones, of Geor-  
gia. He gave the *Syn* reporter to-day  
an account of his experiences and plans  
for the future. He preached this after-  
noon in a large gathering of young men  
at the Young Men's Christian Associa-  
tion hall, and to-night addressed a still  
larger audience at Grace Methodist  
church. Mr. Small said:

"Brother Jones and I, in the year  
ending September 15, have held ser-  
vices in St. Louis, Chicago, Cleveland,  
Chattanooga and other places. We have  
preached and addressed audiences in  
that period about 1,000 times, the con-  
gregations aggregating 3,000,000 people.  
We have traveled altogether 20,000  
miles. Our schedule for the future  
takes us to Omaha first, then to Boston  
in January, San Francisco in February  
and March, thence to Minneapolis,  
Reno, Ga., Red Hook, Cleveland, Tri-  
buna, Round Lake, Grimsby Park, Oak  
and other points. We have enough ap-  
plications to occupy our time for five  
years, but have only made positive en-  
gagements for a year ahead."

"Do you receive many letters?"  
"We get bushels of letters, but we  
answer only the sensible ones. The  
letters from cranks we burn. Some  
very sensational stories are told in these  
letters. Seven-tenths of the misery we  
hear of is caused by liquor. It is grow-  
ing more apparent that the church must  
destroy the liquor traffic or it will thro-  
to the church. The church is afflicted  
in these days with overtures of starch,  
stunco and plush. It needs drenching  
with apostolic zeal, human sympathy  
and plain Galilean preaching."

Mr. Small was asked if his journalistic  
experience had aided him in his evan-  
gelical work. He replied: "Well, I  
meet as many wooden-headed people  
and cranks here as in journalism. In the  
work of religion you catch them all, from  
the wild-eyed manufacturer of the mil-  
lennial almanac to the snail-eyed sister  
who wants to live to see the whole  
human world tipped out in new red  
sauce."

## THE STATE.

What is Said in the Field of Politics  
and News About Us.

In democratic DeKalb the republi-  
cans elected nearly their entire county  
ticket.

Judge Holman pulls through by 600  
majority. The malcontents were after  
him with a sharp stick.

Capt. J. A. Lemcke, state treasurer  
elect, who has been confined to his  
home for several weeks from the effect of  
rheumatism, went to the Arkansas Hot  
Springs for relief on Wednesday.

The democrats of Noble county fared  
pretty well, after all. They elected the  
treasurer, sheriff, coroner and one com-  
missioner. The republicans are badly  
torn up over this unexpected result.

It is conceded by all parties that upon  
the face of the present legislative re-  
turns, the democrats have a majority of  
two on joint ballot, but the republi-  
cans claim that a recount will develop  
both that frauds were committed by  
which the republicans were counted out  
and these may be overruled and the re-  
publicans restored to their rights. The  
districts in which the recount has been  
demanded include Vermillion and Vigo,  
and Sullivan, Clark and Jefferson.

The general assembly stands thus:  
Senate, democrats, 31; republicans, 19.  
House of representatives, democrats, 45;  
republicans, 55. The democrats will  
have seventy-six members in both  
houses, giving them two majority on  
joint ballot. The republicans claim an  
intelligible majority in a southern county  
and both sides are charging fraud at In-  
dianapolis. Suffy committees have  
been appointed to insist on a fair count  
and punish fraud.

Elmer Hollibaugh, drummer for  
Charles Hamilton & Co.'s grocery house  
of Lafayette, disappeared with \$2,000 of  
his employers' money and went to Can-  
ada. He was captured Wednesday in  
Detroit, by one of Pinkerton's men, who  
integrated him from the other side by  
sending him a telegram signed by his  
mistress, saying she was dangerously  
ill. He bit at the despatch, and jor-  
neyed from Toronto to Detroit, where  
the detective nabbed him. Hollibaugh,  
when he lit out, left his wife and two  
small children at the Bramble house, in  
Lafayette, without a cent, and a board  
bill of two weeks' unpaid. Hollibaugh  
and guilty Saturday, and was sentenced  
to prison for two years.

"There has been a great hue and cry,"  
said Deputy State Treasurer Conner  
this morning, "about 'opening the books'  
of the state treasurer's office. They  
have never been any other way than  
open. Any man or any body of men  
are welcome to come here and examine  
the books at any time, and that privilege  
has never been denied anybody. The  
books are kept in such a way here that  
they will show exactly the operations of  
the office, and there is enough money,  
or its equivalent, to make a full settle-  
ment at any time. When the legislative  
committee came here two years ago we  
told them the same thing, but they  
didn't take advantage of it, but satisfied  
themselves with examining the books in  
the auditor's office."

Hon. J. C. Nelson, the defeated dem-  
ocratic candidate for lieutenant governor,  
whose earnest and honorable canvass for  
the position has gained for him the re-  
spect of the people of the state if he did  
fail to get enough of their votes, has  
written a letter to a personal friend, in  
which he takes a cheerful view of the  
situation. He says he has no fault to  
find nor complaints to make, and is only  
hopful that the democracy will at once  
begin the fight to secure the victory in  
Indiana in 1888. Until that time, he  
says he is out of politics, and expresses  
his gratitude for the support he received  
this year. Mr. Nelson is one of the few  
candidates who did not resort to person-  
alities or unbecomingly abuse his opponent  
during the campaign.

### The Bank Circulation.

WASHINGTON, Nov. 8.—Mr. Trenchard,  
comptroller of currency, in an interview  
says: "The national banks cannot keep  
the called 3 per cent. bonds as the de-  
posit required by the United States  
laws. Such deposit must be in interest  
bearing bonds."

Charles Doolittle, formerly of this  
city, returned from Detroit to-day, for a  
brief visit. The schools will now prob-  
ably close for want of pupils.

## Daily Sentinel

MONDAY, OCT. 8, 1888.

Dr. GINGER returns empty-handed from a day's hunting, and in response to his wife's inquiries, emphatically confesses that he killed nothing. "Why," retorts Mrs. G. slowly, "you could have done better than that had you staid at home and attended to your regular business."—*Lawell Citizen.*

A venatic asylum, located at Poughkeepsie, rejected a patient recently, because he was "a dangerous lunatic." Only perfectly harmless lunatics are wanted at that asylum, it seems. So long as a lunatic behaves himself he is all right there, but the moment he gets to cutting up he must find some other boarding house. Lunatics should bear this in mind and conduct themselves accordingly.

On one of the islands in Casco Bay there is a numerous, thrifty, and most excellent family in which John is the popular front name among the males. To prevent confusion of identity they are respectively known as "John J.," "John O.," "Heffer-John," "Hammer-John," "Shocking John," "Dunk John," "Flatfoot John," "Captain John," "John Eliza John," and "John," the latter being the John of the prolific tribe.

A Philadelphia clergyman says he has received from \$200 to a pair of juicy spring chickens for marrying a couple. Another received as much as \$500 for performing a marriage ceremony, and tells of one time marrying a young couple and giving them several hundred dollars to go to housekeeping. The bride was his daughter. There is one Philadelphia minister, however, who was once paid \$5,000 for tying the knot.

The use of frogs as a table delicacy is increasing. They are shipped from Michigan, Ohio, and Indiana in wire cages with zinc bottoms, and go to the large Eastern cities. Frogs must be taken alive in market, as the live, white flesh does not keep long after being dressed. The frogs are caught in swamps and ditches in the shallow lakes and ponds. The only preparation for the cooking of frogs is to skin them. The manager of Fulton Market, New York, says a three-acre frog-pond will furnish each year 100,000 frogs, and be more profitable than a herd of Alderney cows.

THE SANITARIAN relates a case in which a rat had died under the floor of a large drawing-room and was giving great offense to the owner of the house, who had had the carpets and furniture removed preparatory to taking up the floor. An ingenious friend drops in, suggests that the floors and windows be shut, steps out to a stable and traps a couple of blue-bottle flies, and returning sets them free in the apartment. The flies after a little undetermined buzzing, settle periodically on a certain crack in the floor, and on the removal of one plank at this point the cause of the offense was readily removed.

ALVIN CORBIN indirectly owes his Manhattan Beach property to his son, a bright lad, known as "Austin the Second." A dozen years or more ago, when the boy was an infant, he was seriously ill, and the family physician ordered him removed to the seashore. Coney Island was the nearest point from the Corbin home in Brooklyn, and Wyckoff's was the best hotel on the island. Thither the Corbins went in a carriage, and waited all day for a back hotel-room to be vacated. During the summer Mr. Corbin spent his Sundays with his family, and often wandered over the eastern end of the island, then a wilderness. In the end he bought the property for what now seems a song, and young Austin's life was saved.

**POPULAR SCIENCE.**

A GRADUAL increase in the average size of the skull among the nations is believed by a Bombay physician to be taking place as an effect of civilization in India.

An electric spark in a dusty atmosphere causes dust to settle, and if the spark is sticky enough it is probably one reason why the air seems so clear after a thunderstorm, even if little rain has fallen.

It is a familiar and yet it always strikes one as a marvelous fact that worlds may have been for years in existence, the light of which has not yet had time to reach our earth, and that we may continue to see the light of the stars that have been for a long time extinct.

The 600 tornadoes recorded show that their path is almost invariably in the same direction, opposite the hands of a watch; and their onward movement with us is nearly always northward.

Their favorite time of day is known; and a tabulated list of 192 shows nearly two-thirds between 2 and 5 p. m.

An ingenious astronomer, who is known as Mr. Monk at Dublin, who suggests that as shooting stars are known to be dark bodies rendered luminous for a short time by rushing through our atmosphere, now stars are dark of faintly-luminous bodies which acquire a short-lived brilliancy by rushing through some of the gaseous masses visible, perhaps, as nebulae, which exist in space.

INVESTIGATIONS by Dr. R. von Helmholtz, described to the Berlin Royal Society, confirm the statements that the formation of cloud in saturated air is induced solely by particles of dust, and that the finer and sparser are the dust particles the more slowly is the cloud formed. These results are also confirmed by the experiments of Lord Kelvin's explanation that the blue color of the sky is due to floating dust.

In order to learn why there is so much sulphur in stone coal, and so little free alkaline carbonates in the ashes, M. Drouot has analyzed the surviving species of the families of coal plants, particularly the Equisetaceae, and has found that the former contain a large proportion of sulphuric acid. He concludes, therefore, that the coal plants were more highly charged with sulphur than most existing plants, and that for that reason their alkaline constituents assumed the forms of sulphates instead of carbonates.

LIQUID oxygen, in small quantities, has been produced by a number of experiments, but it is only recently that solidified oxygen has been obtained. This interesting experiment was performed by Prof. Dewar at the Royal Institute a short time ago. It was accomplished by allowing liquid oxygen to expand into a partial vacuum, when the enormous absorption of heat which accompanied the expansion resulted in producing the solid substance. The oxygen in this condition resembles snow, and has a temperature 200 degrees C. below the freezing point of water.

A PHYSICIAN, referring to the custom of traveling on sleeping cars with the bath, made up with their heads toward the engine, said: "It is certainly bad for the brain of the sleeper, as it is not natural, and it is only recently that some travelers, especially those who have been on the road extensively, experience bad effects from it. Take infants in baby carriages, and no sane woman will think of traveling the whole night on the child's head. If they always, except the young and inexperienced mother, pushed their heads toward the engine, they would avoid such inconvenience. It is the same thing on the cars, and no one should hesitate about having his berth made up so as to move along feet first. It is much better for the brain."

**Burdette on Boys.**

What an uncertain element is that noble animal, the boy! One sunny day last week a little party of us climbed Mount Zeecheus. We call it Mount Zeecheus because it is short of stature, just as we have named its rocky neighbor Mount Elshas because it is bald. While we were on the mountain side we saw six or seven or eight boys flying across the meadow down below. "Merry, light-hearted, happy boys," we said. "What a care-free, honest little troop it was! Everybody's heart warmed toward a boy." So in a spirit of condoning good fellowship we lifted our voices in a cheery hail, sending our light "ho ho ho" echoing down the valley. The boys halted, looked up, and in an instant their bright eyes caught sight of us half hidden in the leafy bushes on the mountain side. "They see us," we said; "now for the merry, ringing, boyish shouts in answer to our hail." A moment of waiting, expectant silence, then the red lips, redder still, opened by strains on the hill, parted, and a volley of profoundly vicious abuse, taunting threats, vile epithets, howled and shrieked in seven or eight different keys, came shrilly up from the peaceful valley with a fury that made the bark on the birches curl and cringe. Atrighted, indignant, horrified, we shrunk out of sight and with a partitioned off of profanity the uncivilized disappeared. There are various means by which you may secure a reasonably courteous response to a pleasant salutation from a party of strange boys. One way is to kill all the boys except one, the smallest and weakest, and then stand over him with an iron rod which you intend to use to beat him with. There are other ways, but none quite so certainly efficacious as this one.—*Bob Burdette.*

**Promptness and Unity.**

"See here," called out the barkeeper, "I haven't paid for your drink yet."

"Fine," replied the gentleman, who was modestly retreating through the door edgewise; "true, I did not; it is a habit into which I have fallen in my advancing years; it is the last infirmity of noble and acquisitive minds to absorb more than they give out." So saying, he gently but firmly pushed the door back in time to receive upon its rattling panels a bludgeoning, lemon-squeezing, ice-pick, two beer glasses and a decanter. "What promptness and what unanimity!" said the gentleman, pausing to dry his lips with an absent cuff. "That bartender must be a human gnat!"—*Burdette.*

**AMERICA LEADS**

In the possession of the Great Monuments of the World.

A COMPARISON OF FAMOUS MONUMENTS.

The above illustration presents in a better form than figures can convey the relative heights of the great monuments of the world. It will be seen that in possessing the Washington, Liberty and Bunker Hill monuments we tower highest toward the heavens, with the exception of the pyramids, which are more than mountain peaks. America's pride in this respect cannot long remain, for France intends to build, by 1888, an iron tower 1,000 feet high.

**MINNESOTA'S STATE FAIR GROUNDS.**

We are enabled to present this week almost a bird's eye view of the new and extensive fair grounds, situated midway between the twin cities of Minneapolis and St. Paul, and to be used by the state of Minnesota. The vast inclosure is about a mile square. It contains, besides the main building, a dozen or more commodious structures for exposition purposes, and the accommodation of visitors, a fine race track, with a grand stand shown in a separate illustration.

**THE GRAND STAND.**

Though of comparatively recent construction, the exterior and hopefulness of the people of Minnesota is shown by the rapidly built and now so perfect toward the completion, and by the breadth and magnitude of the plan which they have laid down. The buildings are so isolated that a contagion in one cannot spread to the others, while plenty of room is in this way allowed for the enlargement of the structures to the development of the various branches of exhibits without the extension. The citizens of the great northwest have great faith in the future of their territory, in testimony of which their new state fair grounds of Minnesota are the latest work.

**Chronic Catarrh**

Catarrh is inflammation of the mucous membrane, attended with increased secretion. Thus catarrh may affect the head, throat, stomach, bowels, or any part of the body where the mucous membrane is found. But catarrh of the bowels is by far the most common, coming on so gradually that often its presence is not suspected till it has obtained a firm hold on the victim. It is caused by a cold, or a succession of colds, combined with Impure Blood.

When firmly established the disease is exceedingly disagreeable, causing flow from the nose, dyspepsia, flatulency, headache, loss of appetite, tender and burning sores in the rectum, etc. In Hood's Sarsaparilla may be found a prompt and permanent cure for catarrh. It purifies and enriches the blood, soothes and cures the diseased membrane, and thus cures the disease. As the same time it restores and renews the whole system. The reasonable success of this powerful medicine entitles it to your confidence. Give Hood's Sarsaparilla a trial.
